WILLIAMES POST & RAIL SYSTEM + ROLLING BENCHES & SEEDED TRAYS ARE ROLLED FROM THE SEEDING LINE TO THE GLASSHOUSE

WILLIAMES PLANT HANDLING SYSTEMS includes **Nursery Racks** and **Rolling Benches** which reduce the multiple handling and movements of trays in the nursery. Our systems can be customised and designed with innovative solutions to meet your specific needs.

Nursery management is greatly improved: the movement of soil, plants and empty and filled trays and pots is assisted by well designed machines used in an integrated system.

Planning is more predictable as the heavy, multiple daily physical demands on skilled staff is reduced resulting in fewer injuries. People have greater job satisfaction and higher productivity is achieved.

FEATURES THAT CAN BE INCLUDED

- Self-locating rollers for rolling benches
- Designs that can allow for trays to slide on and off benches, or on and off one or more galvanised roller conveyors as an important feature of our automated loading and unloading options, in our integrated systems
- Hot dipped galvanised iron for maximum protection
- Aluminium extrusions available
- Can be designed to suit all tray types
- Kit form available for assembly at your nursery

- Rolling racks
- Stackable racks
- Roll and stack racks
- Robust construction means low maintenance, high productivity, saving time and money

A Williames Plant Handling System is fully customised for the individual site. It helps you achieve substantial labour savings and delivers a significant competitive advantage to our customers.
